ELITE STONE

FROM CONCEPT TO CREATION

CORE VALUES

HSE

We believe all accidents are preventable by following safety, protocols, and guidelines.

QUALITY

We take pride in providing quality products and services that we stand behind.

RESPECT

Diversity is our motto which enables an environment were all members values being a part of.

TRUST

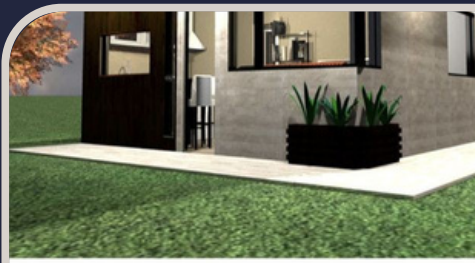

Transparency in all work matters. Being genuine and honest in all the projects we participate in.

GROWTH

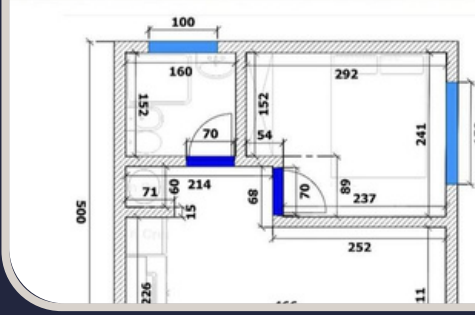

INNOVATION

We are open to ideas that challenge the conventional views and drive change.

ELITE STONE

FROM CONCEPT TO CREATION

About Us

Elite Stone- located in Cairo, Egypt- is a team of professionals specialized in interior designing, fine finishing, and offering technical support for corporate, commercial, and residential projects since 2019.

Elite Stone has successfully been delivering multiple high quality projects on time and prides itself with providing services that meet client expectations.

Vision

WE DESIGN EXPERIENCES

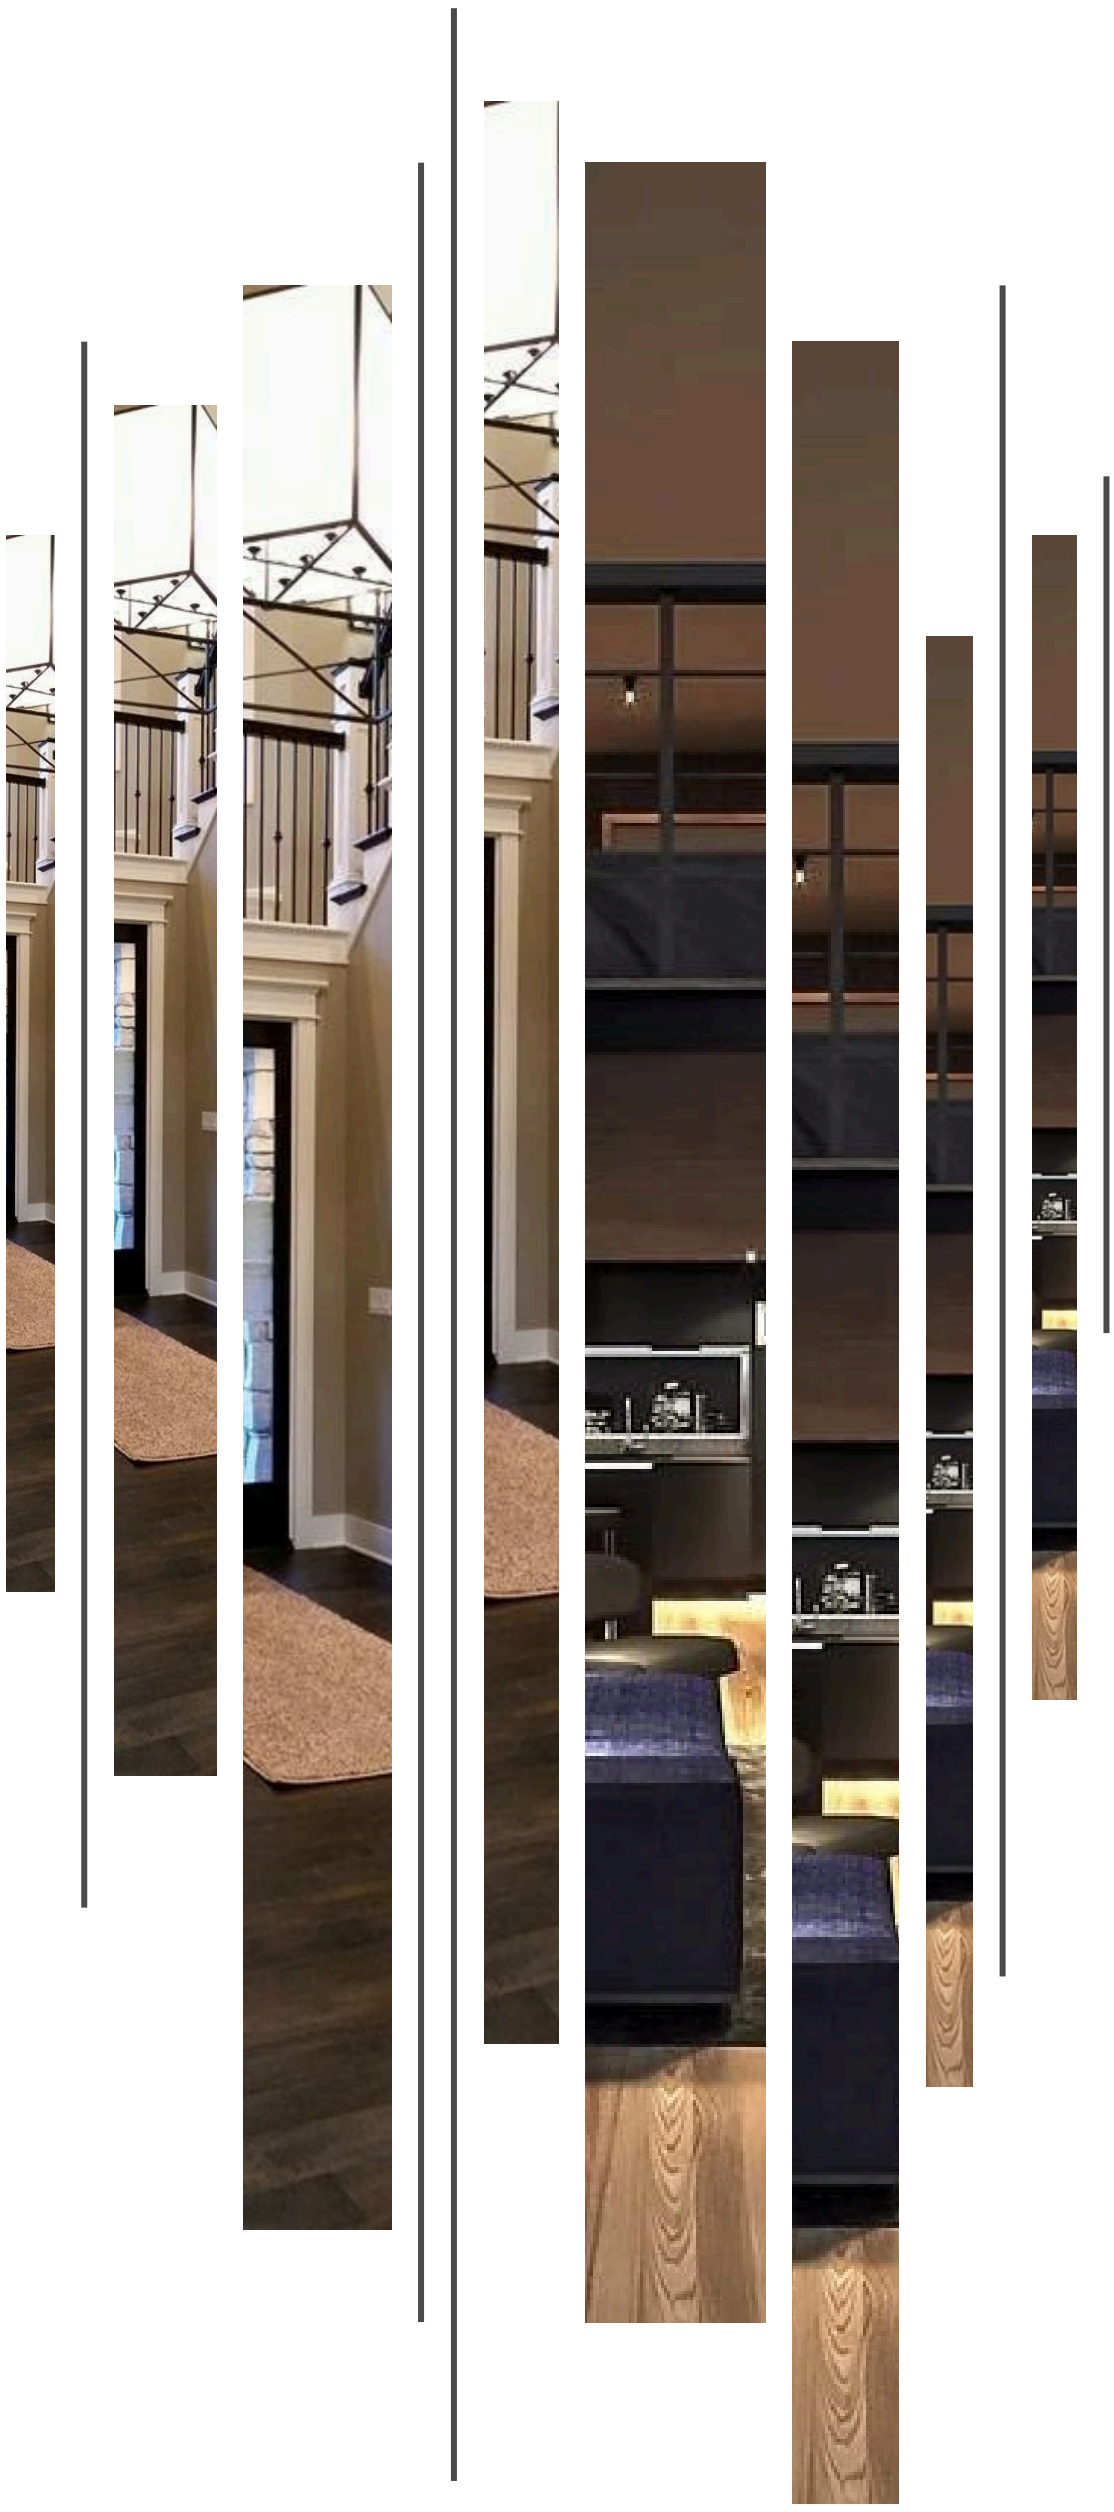

The thoughtful, collaborative and lasting creation of architecture has the ability to impact the quality of life for those who use it. Elite Stone is dedicated to crafting unique and responsive spaces that go above and beyond the standard building experience.

Mission

The team operate with a spirit of curiosity through craft and exploration.
Our observations are the base of our implementations. We collaboratively employ a proactive process which provides creative, customized solutions to our client's specific needs. Ultimately, we craft memorable places of outstanding lightening, surfacing, materials, and space designs.

What We Do

PROJECT MANAGEMENT

We maintain discipline at initiating, planning, executing, monitoring, and finishing the project to achieve the best quality and meet a strict criteria to guarantee success at the specified time.

FINISHING

We provide complete finishing contracting services including premium disciplined, fit-out works, electro-mechanical techniques, and special systems. From concept to creation, we apply the highest engineering standards to ensure our clients' expectations are met and beyond.

INTERIOR DESIGN

Our team includes qualified engineers and local construction partners in tune with the needs and materials of the industry.

FLOORING

We have a concept for the interior floors to be a piece of art. We can create a custom floor design using the most modern and durable flooring solutions.

Industrial Flooring

At ELITE STONE, we specialize in providing robust, high-performance flooring systems tailored specifically for industrial environments. With extensive expertise in concrete, cementitious self-leveling, and epoxy systems, we understand the demands of heavy-duty operations. Our commitment to durability ensures that we select and implement the right flooring solution for each unique application, optimizing for wear resistance, chemical resistance, and long-term performance. We take pride in our ability to assess each project's specific needs and deliver customized solutions that stand up to the toughest industrial conditions, ensuring your floors last and perform, even under the most challenging circumstances.

Decorative Flooring

At ELITE STONE, we specialize in high-end decorative flooring systems that combine stunning aesthetics with unmatched durability. From epoxy terrazzo and epoxy metallic to cementitious terrazzo and micro cement, our expert team ensures each floor is not only visually striking but also engineered to last. We take great pride in our meticulous finishing, paying attention to every detail to deliver a flawless surface that enhances the overall beauty of your space. Whether you're looking for vibrant, reflective metallic finishes or the timeless elegance of terrazzo, we provide flooring solutions that are both visually captivating and built to endure, creating a lasting impression that stands up to the rigors of daily use.

Hygienic

At ELITE STONE, , we understand the critical importance of hygiene in sensitive environments such as hospitals, medical factories, and food & beverage facilities. We take great care in selecting and applying the right flooring systems that not only meet but exceed health and safety standards. Our team ensures that each solution is seamless, non-porous, and easy to clean, preventing the buildup of contaminants and supporting strict sanitation protocols. With a deep commitment to maintaining the highest hygienic standards, we deliver flooring systems that contribute to safer, cleaner, and more efficient environments, ensuring your space remains compliant and protected at all times

Concrete Repairing

At ELITE STONE, we excel in concrete repair by selecting and applying the most suitable materials to restore and enhance the structural integrity of your surfaces. Whether it's addressing cracks, spalls, or general wear and tear, our team uses advanced repair products tailored to the specific needs of each project. We carefully evaluate the condition of the concrete and choose from a range of high-performance materials, including epoxy resins, cementitious mortars, and polymer-modified compounds, ensuring a seamless bond and long-lasting durability. Our attention to detail and deep understanding of concrete properties allow us to provide reliable, cost-effective solutions that extend the life of your concrete surfaces and maintain their strength and functionality.

Water & Thermal Proofing

At ELITE STONE, , we specialize in advanced waterproofing and thermal proofing solutions designed to protect and enhance the integrity of your structures. With expertise in cementitious, epoxy, polyurethane, and PVC materials, we carefully select the right system to tackle both positive and negative water pressure challenges, ensuring optimal performance in any condition. Whether addressing persistent leaks, moisture intrusion, or thermal inefficiencies, our team is dedicated to finding tailored solutions that work even in the most difficult situations. By combining our deep technical knowledge with high-quality materials, we provide long-lasting protection and energy efficiency for your projects, ensuring durability and peace of mind for years to come.

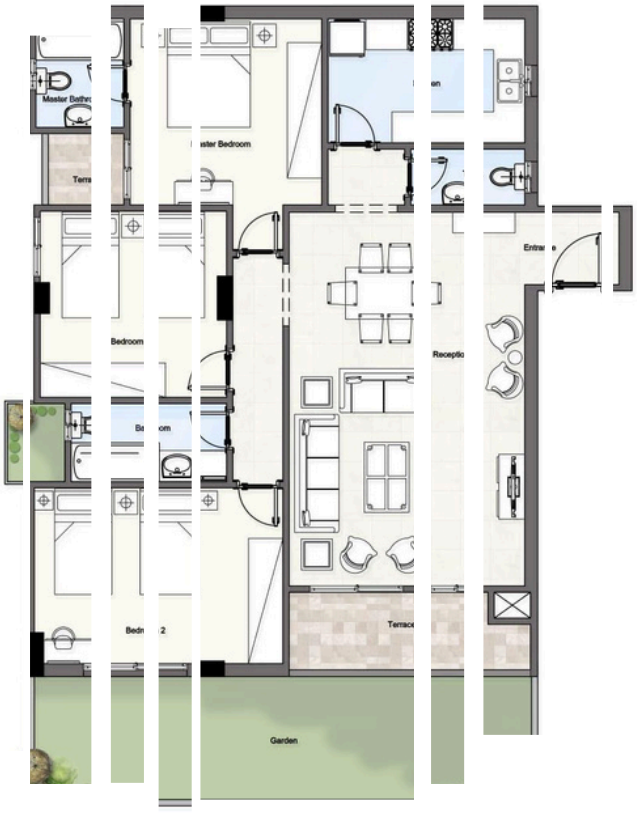

Injection

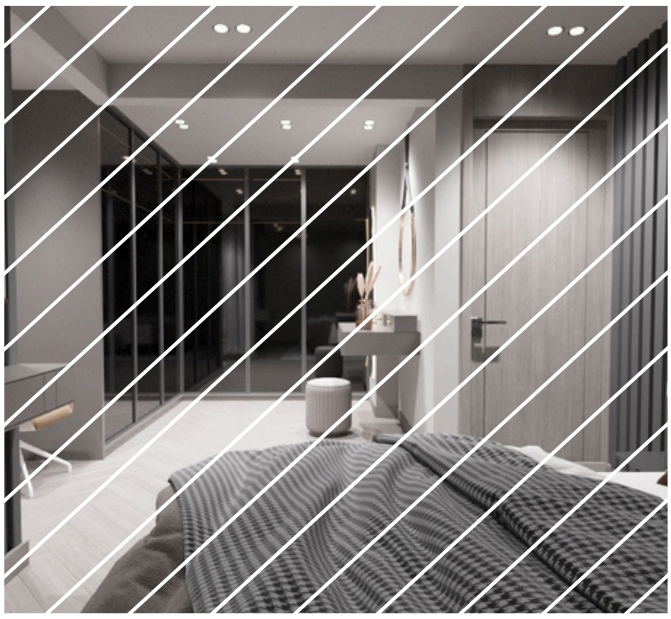

At ELITE STONE, , we offer effective injection solutions to address water leakage issues in tanks, pools, expansion joints, and even soil. Using a variety of specialized materials such as cementitious, foam polyurethane, and acrylic gel, we customize our approach to ensure the most efficient and durable result for each unique case. Our expert team carefully selects the right injection material based on the nature of the leak and the environmental conditions, creating a reliable, long-lasting seal that prevents water intrusion. Whether it's repairing cracks, sealing joints, or stabilizing soil, our injection techniques provide a cost-effective and non-disruptive solution that restores the integrity of your structures, extending their lifespan and enhancing their performance.

Designing

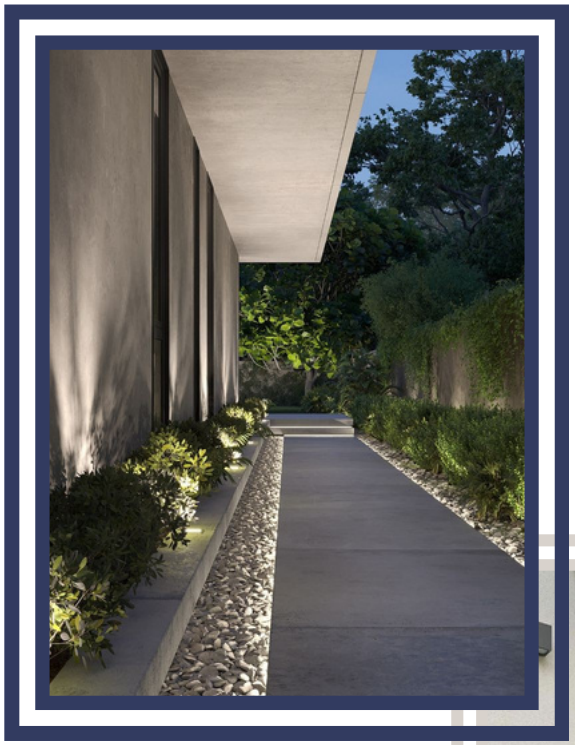

We offer 2D and 3D designs to provide you with a wide range of possible designs to visualize all the simple and complex details before implementation.

Finishing

Our professional executors are keen on enhancing the appearance of the used finishing materials concerning the luster, texture, and color. In addition to targeting durable, high-quality products from local and foreign suppliers and regarding the time factor, Elite Stone reliable management assures reasonable prices in comparison to the offered services.
